

## What is Matador Academy?

First of all, we are not a security company. We are a company focused on raising the level of professionalism and training of the bar security professional, commonly known as bouncers. We believe in getting away from the idea of the thug who wants to fight and pushing forward the idea that security's purpose is to provide a safe environment for guests and staff of the bar/club facility. This is accomplished through continued training in good customer service skills, verbal and physical de-escalation techniques and teamwork.

## DPSST Executive Manager Services

For those bars and nightclubs in the state of Oregon who employ security personnel also need to have an executive manager for their security staff, as required by OAR 259-060-0130 (DPSST security regulations). Matador Academy offers this service.

As your Executive Manger, Matador Academy will provide you with the following services...

- **Certification/Training Tracking**

We will maintain the training and certification records of your security staff and make sure they are always current and notify staff as their certifications are about to expire.

- **Free Unarmed DPSST Classes**

We offer DPSST classes once per month. Any security staff members who need refresher classes or full classes for new hires will receive these classes for free. This does not include the fees associated with applications and renewals owed to DPSST.

- **Free Associate Matador Membership**

Each of your security staff members will receive a free associate membership to Matador Academy allowing them to access services we offer to individual bar security professionals.

- **Active Supervisor Checks**

A licensed DPSST Supervisor or Executive Manger from our staff will check on your security staff weekly, while they are working to make sure they are working to your and our standards.

- **Monthly Progress Report**

Matador will provide you with a progress report of how their security staff performs with any suggestions on changes that need to be made.

- **Discounted Personal Seminars**

Executive members that request personal training seminars for their staff will receive a discount on instruction.

If you are interested in taking advantage of our Executive Manager services, please feel free to contact us and set up a meeting.

## Course Topics & Seminars

The following are course topics and certifications that Matador instructors teach.

- DPSST Unarmed Cert / Re-cert
- Handcuffing User Certification
- OC / Pepper Spray User Certification
- Expandable Baton Certification
- Management of Aggressive Behavior
- Pressure Point Defense and Control Tactics
- ID Checking and Forgery Detection
- Bar Room Grappling
- Crowd Control / Door Management
- VIP Recognition
- Bar Security 101
- Bloodborne Pathogens

Two courses that we currently do not teach, however, we feel are very important to have in the bar security industry and encourage everyone to complete these course on their own.

- CPR / First Aid
- OLCC Server Permit

You may have noticed that we don't have a specific Customer Service class. This is because we promote and teach customer service skills in each one of the courses and seminars. We found that it is better taught throughout our curriculum than in a single class.

If you are interested in taking any of our courses or seminars, feel free to contact us and setup a meeting.
